OVERVIEW

Owen County EMA, Owen County, Indiana (the "Client") requires GIS Web Services Development and services. WTH Technology, Inc. (the "Company") is a provider of such products and services. This agreement defines the scope of products and services to be offered by the Company and the compensation to be paid by the Client.

DESCRIPTION OF PRODUCTS AND SERVICES

GIS Web Service:

The Company will design and implement a Web Service that will enable the Indiana Department of Homeland Security (IDHS) to access certain designated GIS layer data and utilize that data in the management of issues related to the agency.

The Web Service will include the following:

- Web infrastructure to enable the system to operate on the World Wide Web platform
- A URL address on the World Wide Web that allows access to the GIS data that is made available. The address can be password protected if the protection is requested by either the Client or IDHS.
- The Web Feature Service will use the WFS 1.1 OGC Standard as the protocol for the data housed in the web page.
- Any Open GIS capable Viewer that can use the WFS 1.1 OGS Standard will be supported by this web page.
- WTH will utilize the Client's existing UDX data synchronization system to maintain the viability of the data that is served by this web page. (As updates are made and synchronized in the normal course of business within the Client's system, those updates will be made immediately available on the web service.)
- Data layers to be provided by the County for the web service: Parcel Polygons, Transportation Road Centerlines, Transportation Railroad Centerlines, Address Points or Ranges, Hydrology Lines and Hydrology Points
